## **DAILY MEDICATION LOG**

It is important to take medications exactly as the doctor prescribes them. A medication log can help you to track the medication schedule and be sure that your loved one doesn't miss a dose. If they do miss a dose, call the prescribing doctor or the pharmacist for instructions. Let the healthcare team know immediately if there are any side effects that result from taking a medicine. Make sure the healthcare team is told about any supplements, vitamins, or over-thecounter medications the patient takes. If your loved one is taking several medications, it is helpful to use a pill box to organize them and take pictures of the different pills so you know what each of them looks like.

| DATE | TIME | MEDICATION | DOSAGE | COMMENTS |
|------|------|------------|--------|----------|
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
|      |      |            |        |          |
